Sunol AgPark Prospective Farmer Application

Applications are open to prospective farmers for two separate plots (0.65 and 0.75 acres) at the Sunol AgPark. Applicants are encouraged to apply for one or both plots. Farms must be operated following National Organic Standards and farmers must carry a Commercial General Liability Insurance policy.

To be considered for a Farming License at the Sunol AgPark, please complete the following application and submit to Colleen Hotchkiss, AgPark Manager via email at colleen.hotchkiss@acrcd.org by 5PM Friday, April 22, 2022.

There will be two informational tours held at the AgPark on Tuesday, April 5th from 1-2PM and Monday, April 11th from 3-4PM. To RSVP and for any other questions, please contact Colleen at the above email or at (650) 868-7186.

Farm Name: ____________________________________________

Farm Classification (circle one): Sole proprietorship LLC Partnership Cooperative
Non-profit organization
Other: _____________________________________________

Primary contact person: _______________________________ Phone: __________________
Email: ______________________ Address: _______________________________

Farm Partners/Owners (list name, title and approx. # of hours per/week):
  Partner 1 _____________________________________________
  Partner 2 _____________________________________________
  Partner 3 _____________________________________________

Farm Employees (list name and approx. # of hours/week during work season):
  Employee 1 _____________________________________________
  Employee 2 _____________________________________________
  Employee 3 _____________________________________________
  Employee 4 _____________________________________________

Farming experience (how many years, what crops, how many acres):
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
Please submit the following information as attachments with your application:

- **Business Plan** – Upon application for entry into the AgPark, Farmers are required to submit a business plan including the following elements: 1) Vision, Mission, Goals; 2) Description of Products/Services; 3) Production Plan; 4) Sales and Marketing Plan; and 5) Projected Income and Expenses. AgPark Farms may function as non-profits or other organizational models, but all Farmers must still provide a business plan demonstrating the farm’s economic viability. Below are a few resources that may assist in putting together a business plan:
  - The Farm Business Start-up Checksheet from NCAT
  - Simplified guide on Creating a Farm Business Plan from California FarmLink
  - Farm Business Plan Workbook from California FarmLink
- **Prior year financials** - income and expense statement or clear accounting of the financial state of the business for prior 12 months. If a full year of financials does not exist, please provide as much as possible.
- **Production Summary** - what you produced in 2021 by commodity type and sales avenue.
- **Annual Field Systems Plan** – complete the attached form to demonstrate your management plan for your licensed acreage at the AgPark.
- **Completed Organic Farming Input Record** – complete the attached form to document your input plan for 2022.
- **Pesticide Use Approval and Report Form** – complete the attached form to request approval for use of all pesticides you plan to apply in 2022.
- **Any additional attachments as desired**
Annual Field Systems Plan

Farmer Name(s): ______________________________   Farm Name: __________________________

How will you evaluate soil fertility on your farm? Select all that apply.

☐ soil testing  ☐ microbiological testing  ☐ tissue testing  ☐ observation of soil  ☐ observation of crop health
☐ comparison of crop yields  ☐ other (specify)

What will you do to maintain or improve your soil health and fertility? Select all that apply.

☐ crop rotation  ☐ cover crops  ☐ incorporation of crop residues  ☐ subsoiling  ☐ fallow  ☐ compost
☐ soil amendments  ☐ tillage performed at optimal soil moisture  ☐ other (specify)

List all fertility inputs used or intended for use in the current season. Please be sure that all current or anticipated fertility inputs are also included in your OFIR (Exhibit K).

How will you manage weeds on your farm?

☐ crop rotation  ☐ prevention of weed seed set  ☐ soil solarization  ☐ use of fast emerging crops  ☐ cultivation  ☐ undercutting  ☐ hand weeding  ☐ mowing  ☐ flame weeding  ☐ smother crops  ☐ non-synthetic mulch
☐ organic herbicides  ☐ Stale seed beds  ☐ other (specify)
How will you monitor the effectiveness of your weed management program?

☐ observation  ☐ records kept of observations/counts  ☐ other (specify)

What strategies will you use to control pest damage to crops? Note: All pest, disease, and weed control related inputs should be listed in Exhibit L

☐ none used  ☐ crop rotation  ☐ selection for plant species/varieties  ☐ development of habitat for natural enemies  ☐ timing of planting  ☐ companion planting  ☐ bat houses  ☐ bird houses  ☐ hand picking  ☐ monitoring  ☐ trap crops  ☐ physical barriers  ☐ traps  ☐ lures  ☐ insect repellents  ☐ animal repellents  ☐ release of predators/parasites of pest species  ☐ other (specify)

How will you monitor the effectiveness of your pest management program?

☐ insect monitoring with traps  ☐ observation of crop health  ☐ comparison of crop yields  ☐ monitoring records kept  ☐ other (specify)

What disease prevention strategies will you use to manage common crop diseases (e.g. powdery mildew, verticillium, early blight, etc)?

☐ crop rotation  ☐ field sanitation  ☐ plant spacing  ☐ selection of plant species/varieties  ☐ timing of planting/cultivating  ☐ vector management  ☐ solarization  ☐ irrigation management  ☐ companion planting  ☐ compost/tea  ☐ other (specify)
How will you monitor the effectiveness of your disease management program?

☐ soil pathogen testing  ☐ microbiological testing  ☐ observation of crop health

☐ comparison of crop yields  ☐ monitoring records kept  ☐ other (specify)

CROP ROTATION PLANS: Please describe your annual crop rotation plan for each field. Use the attached map to delineate specific field numbers where the plan will be implemented corresponding to the table below. Include plans for crop production, cover cropping, compost application, and fallow as relevant. The AgPark Manager can provide a close-up of each license parcel upon request.

Organic Farming Input Record (OFIR)

Farm Name: _____________________________    Farm Point of Contact: _____________________________    Date: _________________

Is Your Farm Certified Organic (circle one)?    Yes      No    If yes, please attach most current organic certification

**Please use this form for all NON-PESTICIDE farming inputs utilized over the past year.** This includes anything other than organic, untreated seed and water such as fertilizer, minerals, treated seeds, transplants, compost, manure, cover crop and other materials. All materials must be approved for use in organic systems – see list of [OMRI approved products](#). Receipts must be kept for three years. With approval by the AgPark Manager, farmers with a current organic certification may submit their approved Organic Systems Plan Materials List in lieu of this form.

**Pesticide Use Approval and Report**

Farm Name: _____________________________    Farm Point of Contact: _____________________________    Date: _____________________________

Use this form to **(check one):**

- REQUEST approval of a Pesticide for future use: during license application, renewal process, or for a new pesticide. Once approved, Pesticide will be included on the AgPark IPM Plan’s list of allowed pesticides.

- REPORT MONTHLY Pesticide Use - submit monthly, before the end of the month any pesticide is used.

**NOTE:** Keep separate records of prevention, other non-chemical methods of control used, and experimental efforts prior to pesticide use.

All Pesticides (herbicides, fungicides, rodenticides, insecticides, and any substance used as a pesticide) requested and used must:

1. be **allowed for use in organic systems** – see list of OMRI approved products. Receipts must be kept for three years.
2. appear on the current San Francisco Reduced Risk Pesticide List and be used/applied as required. See Policy for exceptions.
